

PAFFREL

**2015 Presidential Election
First Interim Report
(30th December, 2014)**

BACKGROUND

PAFFREL along with other election monitoring organizations has been formally monitoring the election process from the time that the President issued a notification on November 20 that an early presidential election would be held. However, PAFFREL had already commenced its preparations to monitor the elections as there was widespread speculation even before this notification that early presidential elections would be held.

With a week to go for the Presidential Election, nearly a million people in 18 districts are displaced. This is a serious concern as voter participation can be affected. However, so far, no request has been made by any political party to postpone the election in view of the mass displacement. The Elections Commissioner is scheduled to meet with party representatives and state officials in the next few days to discuss how to provision for displaced voters.

POSTAL VOTING PERIOD

Two days of Postal Voting for the 2015 Presidential Election ended on 24th December 2014. An additional day, December 30th, was appointed for those who missed out the first two days of postal voting.

Postal Voting ended with only a few incidents being officially reported to PAFFREL.

The general incidents reported during Postal Voting related to Intimidation of Voters, Threatening & Disrupting the work of Election Monitors, Use of State Vehicles for Election Campaign Purposes, Attempts/ Influencing State Officials and the Use of State Sector Officials for Elections Purposes.

During the period of postal voting, there were a total of 12 complaints received. Of these, six incidents were confirmed by the end of day on the 25th. Of the six confirmed complaints, two are related to Grievous Assaults where both individuals have been hospitalized. These incidents were reported from Gomarankadawala in the Trincomalee District and Deniyaya in the Matara District.

ELECTORAL BASE

The number of eligible voters at this election is 15,044,490. Of them as many as 400,000 are estimated to be without official ID cards. There are efforts underway by monitoring organizations, including PAFFREL, on the request of the Elections Commissioner, to provide ID cards to at least 40,000 prior to the elections. Others will be urged to obtain temporary IDs that will gain them the ballot. In this situation too, the prevalent weather conditions are likely to negatively impact on the issuance of NICs.

PAFFREL EFFORT

The monitoring of elections is important as it acts as a deterrent on the violation of the election process and the abuse of power. The PAFFREL monitoring effort is two-fronted. The first is the direct effort and the second is through collaborative arrangements with partners.

In its monitoring effort, PAFFREL is deploying 11,200 Stationary Observers, 335 Long Term Observers, 1640 Mobile Observers in 360 teams, 1000 Stationary Observers for Postal Voting, and 35 Mobile teams for postal voting. PAFFREL will be placing observers in 100 counting centres, of the total 1250 centres located countrywide.

Other arrangements include instituting legal action, which is being done with volunteer lawyers associated with PAFFREL. No legal action has been instituted by PAFFREL so far. However this is an option that will be made use of when necessary. PAFFREL will also facilitate continuous engagement between monitors, IGP, Elections Commissioner and members of the Human Rights Commission.

OBSERVATIONS

A total of 565 violations (including acts of violence) were noted as at 30th December 2014 based on complaints relating to 556 incidents. It is to be noted that a single incident can reflect a number of violations as classified by PAFFREL in terms of electoral laws and the regular law of the country. In relation to incidents of violence 162 violations are verified and 10 are unverified. On state resource abuse there are 147 verified violations and 32 unverified complaints. This category includes the use of state resources and employees for election purposes, the appointment and or transfer of public service officers and the use of state officers in campaign activities. The third category of violations, which includes damage to and/or arson attacks on political party offices and disruptions to rival campaigns recorded 247 verified violations and 58 unverified complaints.

MONITORING HIGHLIGHTS

1. In comparison with the **2010 Presidential Election**, where the total violations for the entirety of the campaign period (40 days) was **572**, the tally for the **current election** (as at 30th December 2014) is **565**. This reflects a trend towards **greater violations** in this election. The **number is likely to rise** significantly in the coming week.
2. There have been arrests of those engaging in violence in the past several which is a positive feature of interventions by the Elections Commissioner and the Police and could act as a deterrent on any spike in violence.
3. **Abuse of State Resources** for Election Purposes has **tripled** in comparison to the **2010 Presidential Election**. In 2010, the **total** number of violations relating to abuse of state resources was **53**. In comparison, the tally for the **current election** stands at **147**, with one week to go for elections. The abuse of state resources for election purposes at this election seems to be **well organised and systematic**. It is essentially two-fold: the first being, the utilization of existing **welfare provisions** such as Mahapola and Samurdhi for campaign purposes; second, the provision of **special welfare benefits** i.e. mobile phones to pensioners, **to coincide with the Presidential Elections**.
4. Increasing **direct involvement** of elected members of **sub/ national government** in assaults on **opposition campaign** supporters. What was significant about these assaults was that they were carried out in **clear public view** on groups engaged in non-violent campaign activities i.e. attack on New Generation Artistes in Wariyapola in Kurunegala District, where a UPFA Provincial Council member was directly involved. The attacks, as evidenced by the **degree of virulence**, appear to have been intended, **not merely to disrupt**, but to **stop similar campaign activities**.

ANALYSIS OF ELECTION VIOLATIONS (As at 30th December 2014)

(It is to be noted that a single incident can reflect a number of violations as classified by PAFFREL in terms of electoral laws and the regular law of the country.)

OVERVIEW OF PRESIDENTIAL ELECTION 2015

An analysis of the data up to 30th December 2014, shows a rise in both incidents and violations with the total number of incidents rising to 565 with 556 confirmed Electoral Law/ General Law violations being recorded. A total of 100 unconfirmed violations have also been reported during the period under consideration. The Western Province and Southern Provinces reported 95 and 91 confirmed violations each. In the Western Province, Colombo and Gampaha have recorded 41 and 32 incidents each. In the South, Matara recorded 41 incidents and Galle recorded 33. In North Western Province, which had 79 violations, the Kurunagala District recorded 57 violations while Puttalam recorded 22. The Uva Province recorded 54 confirmed violations with Badulla recording 42. The North Central Province recorded 48 violations with Anuradhapura recording 35 violations. Sabaragamuwa and Eastern Provinces have recorded 46 and 39 incidents while the Northern Province still remains with the lowest number of incidents at 12. In Sabaragamuwa, Ratnapura has 30 recorded incidents while in the Eastern Province, Trincomalee has 18 incidents.

COMPARISON WITH PRESIDENTIAL ELECTION 2010

During the 2010 Presidential Election, where the incumbent President contested for his second term, the total number of confirmed complaints reported for the entirety of the pre-election period of 40 days, was 572 confirmed violations. With unconfirmed violations this figure rises to 757 (the total figure of 757 includes 21 violations which were recorded during the 24-day period between the President's announcement of his wish to hold elections and the declaration of the actual Election Day by the Commissioner of Elections). Already in this election, with 9 days to Election Day, the number of confirmed violations have passed 550. Considering the pre-election period of 47 days, of which this report covers 39 days, the intensity in the number of violations up to now is fairly high. In 2010, a total of 4 killings, 127 election related assaults (both grievous and non-grievous), and 18 shootings were recorded. In this election, no killings have been recorded so far, but 30 Grievous Assaults and 21 Assaults have been recorded to date. Furthermore, in contrast to the 53 instances of misuse of state resources recorded in the 2010 Presidential Election, already a total of 147 incidents of state resource abuse have been recorded as at December 30th 2014, in the 2015 Presidential Election. Therefore it is evident that the misuse of state resources is the single biggest violation in this election, with a 3-times increase compared to 2010.

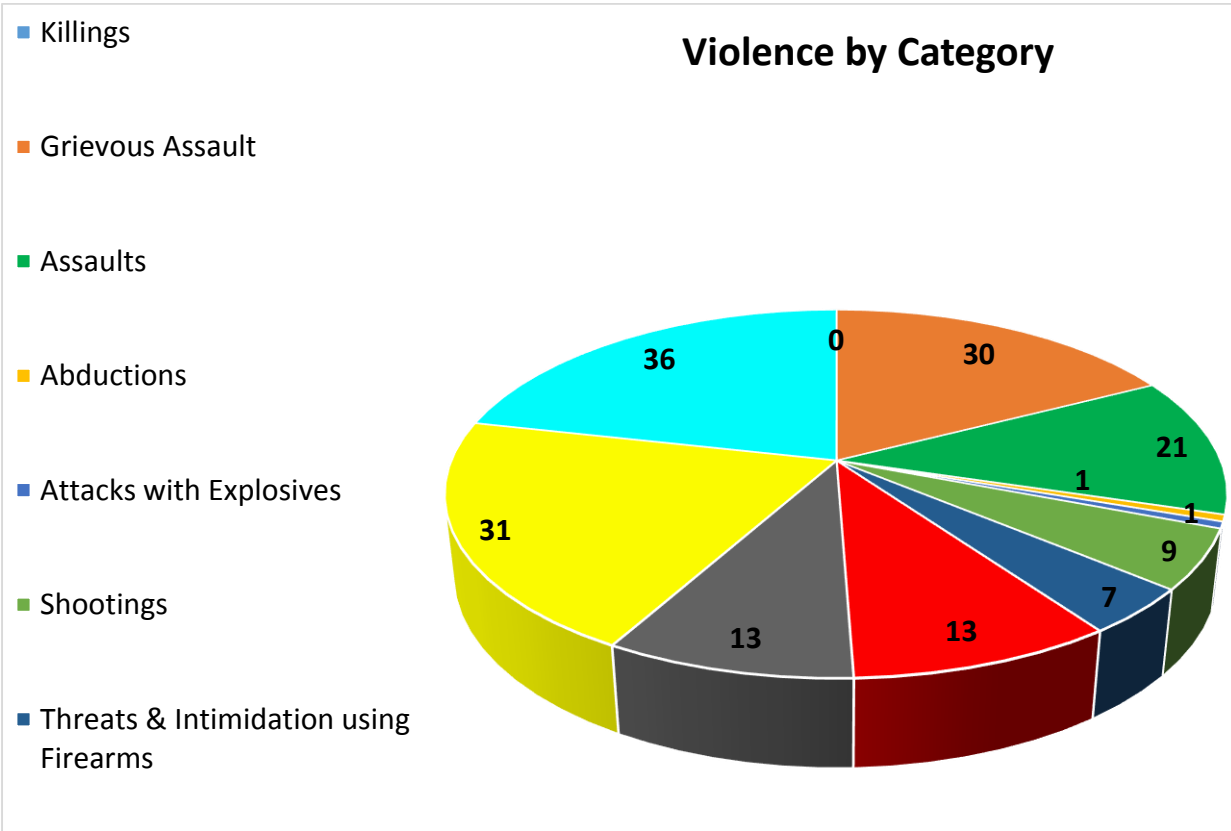

VIOLATIONS RELATED TO VIOLENCE (As at 30th December 2014)

In terms of types of violations, a total of 162 confirmed violations have been reported in the Violations Related to Acts of Violence category (which includes Grievous Assault, Assault, Threats & Intimidation using firearms, Damage to Movable and Immovable Property etc.). The North Western and Southern Provinces have 31 and 30 violations each recorded in this category, and the Western Province has 24 violations related to the same category. The Central Province has 23 violations, whilst Uva and Sabaragamuwa have 16 and 14 violations each. The Northern Province has the lowest number of violations in this category with 1 recorded. In this category, 2 incidents that relate to the entire island have been recorded. In this category, Grievous Assaults and Assaults show 30 and 21 confirmed instances recorded whilst deliberate acts of violence on party offices categorized under Attacks on Political Party Offices/ Candidate Offices show 36 confirmed instances.
